

DSTC 2023 Partnership Prospectus

dstc

Surgeons.
Anaesthesiologists.
Nurses.

The DSTC and DATC courses teach advanced surgical trainees, consultant surgeons and consultant anaesthetists the knowledge and practical skills needed to treat traumatic injury.

The course is taught by national and international leaders in trauma care.

Organisations eligible to become major partners of the course provide products that have important applications in trauma care. These partners gain a unique opportunity to have their products used and demonstrated during practical sessions by the current and future decision makers in the fields of surgery and anaesthesia.

COURSE DATES 2023

Sydney 27, 28 February, 1 March
